Anti-Slavery Lectures in Boston.

Senators Toombs, of Georgia, and Butler, of South Carolina, have agreed to deliver each a lecture on the subject of slavery, upon the point of view given by the anti-slavery folks of Boston. That is well enough. Let the people of Boston hear a calm discussion of the great subject. It will do them good, perhaps. There is a great deal of human nature in the Yankee nation, and we expect the Committee of Abolitionists have made a mistake in inviting this discussion. If they shall find soon a party in Boston defending slavery outright, and starting a secret society, or an open one, to propagate their views, they need not be surprised.

They may depend upon it, the South can defend herself, by force, by history, and by experience. These lectures will show that the condition of slaves suits the negro, and is indispensable to his comfort and happiness, if not his existence.

These Yankees will consider the negro a white man, in spite of facts, of history, and of experience. Their logic and declamation are all based on this assumption. They had just as well consider boys and girls of twelve or fourteen years of age, men and women. The whole negro race is insatiable, and no more fit for the active competition and antagonism of free society than white children under age. It would be just as sensible to emancipate all the little boys and girls from parental control, as to set the negro free.

The Free Soil doctrine is not only unphilosophic but unchristian. It proposes to confine the negro to his present notes and bounds on this continent, or if he goes beyond, to require him to encounter the difficulties of competition with the white race, for which he is unfit. It is simply cruel to make such a requisition.

The negro will be benefited by a variety of climate, as the white race is, and should not be restrained to the unreasonable extent, intended by the Free Soil party.

There is no danger of the Yankees being troubled with slavery themselves. Their dense population, and their soil and climate forbid it. They could not support a system of African slavery as it exists in the Southern States, but they could understand the subject, and let slavery alone. They need the truth, and some of them will be candid enough to profit by it, perhaps.

These lectures listened to will at least start a discussion on the other side. It may lead to reasonable doubts of the truth of their assumptions against slavery, which have heretofore passed unchallenged. At any rate, the subject of slavery will be discussed all over the free States; and it is not worth while to have it always on our own side.

It is quite in taste for the statesmen of free States to decline lecturing on slavery in Boston; but Southern statesmen may well accept such invitations. It is a sort of challenge to them to defend their own theory and practice. Let's have the lectures, and see what the universal Abolition nation will do. They assume that African slavery is all wrong, and decline upon this assumption. There is no reason why the South should decline an argument on this subject. They have reason and right on their side, and need not fear the issue presented.

Three more columns in the Journal on the Catholic question? The readers of that paper are used to be puffed. It requires much learning and more dexterity to attack such an article. Indeed, we think an editor ought to be fined and imprisoned for offering a production to the public of such length on either side of such a subject in this age of the world. Just such stuff has been inflicted on mankind for generations and centuries. Is there no remedy against a repetition of the infliction? Where is the law against negligence?

Yesterday a horse ran away with a small wagon, on Walnut street, between Twelfth and Thirteenth. A lad named Franklin Hess, in attempting to jump off, and the wheel ran over him, breaking one leg.

We are indebted to the publisher, C. J. Peterson, 102 Chestnut street, Philadelphia, for the October and November numbers of his Ladies Magazine. It is a very handsome periodical. Single copies, \$2 per annum; three copies, \$5; five copies, \$7.50; eight copies, \$10; seventeen copies, \$20.

The Nashville Whig papers don't like Gov. Johnston's inaugural at all.

WINTHROP, of Boston, has been writing lately. He is for a straight out Whig party, and treats the Republicans with very little respect. He is a Free-Soiler, however, and thinks the Republicans have disgraced, instead of aiding the cause.

He speaks scornfully of the boasting Republicans that they had killed the Democratic party, when now they call for help, lest the Democrats sweep all before them.

New Enterprise.

The first number of "The Commercial Review and Louisville Prices Current," a new paper, devoted to commerce, manufacture, and agriculture, was laid on our desk last evening. It is well gotten up, and its typographical appearance highly creditable to the publishers. It is published every Thursday from the Merchants' Exchange, by L. Woodbury Fiske & Co., at \$2 per annum. We recommend it to our business men generally as well worthy of their patronage. We shall notice it again when we have more leisure.

We are very much pleased to learn that the grand Balloon exhibition at Mechanics' Institute yesterday, was witnessed by the most expert judges with utmost satisfaction. During this day the Mammoth America will be visited by thousands, and everybody will like to instruct themselves with all the means and apparatus of aeronautics. To-morrow comes of the majestic Balloon ascension on horseback. Go and judge.

Mr. Meagher's lecture in Boston last week, it is said, netted him \$1,200.

Canada has now 3,400 miles of telegraph wire in operation. The last link of the line ending at Lake Huron, at Goderich, was finished last week, and business commenced.

It is mentioned as a fact which indicates the growing demand in continental Europe for American books, that Messrs. Harper & Brothers recently received a very large order from Rome, Italy.

Joseph Adams, aged 26, of Thelburn, Vt., was attacked by a steer and thrown to the ground, in which position he thrust his finger into the steer's nostril, and with his jack-knife cut its throat.

A couple from Nicholas county, seeking the dispenser of matrimonial bliss, crossed the river on Saturday, and returned, apparently well satisfied with the trip.—*Mayville Express.*

THE THEATER.—The attendance last night was very good, and the performances, generally, went off in good style. Miss Kimberly, as Clara, played with more spirit than on Tuesday evening; but still she gave the character a curious reading—an unnatural reading, and one which can never be popular. We see that she feels the character, but she fails in making her audience feel it. In that afterpiece, however, as the little Jockey, she delighted the entire audience. To-night is set apart for her benefit, on which occasion the play will appear as Mary Sintar, and as Asmodeus. The former we believe she will render truthfully, because we believe it, like Camille, suited to her peculiar style of reading female characters, and Asmodeus, she will bewitch the audience. We anticipate much pleasure to-night, and we have no doubt we will draw a crowded house.

"WILL IT CURE?"—Is the question asked every day when speaking of Harley's Saraparilla. We answer, yes, yes. It will cure all complaints for which it is recommended, and is far superior to any other preparation of the kind now before the public. Use you ask for *Hurley's*, and take none other. For sale by all respectable druggists.

LOUISVILLE & PORTLAND RAILROAD.—The running arrangements of the Louisville and Portland are now in complete order for the winter, and are such as will insure the comfort of all who may pass up and down. To save families the trouble of sending their carriages to Twelfth street, the omnibus will carry in any part of the city for an additional charge of five cents. This is a convenience certainly.

Battle between the Texan Rangers and the Mexicans and Indians.

By the 21st Calvary, Louisiana, just from Indian Springs, dated Sunday, 14th inst., containing an address from Capt. Calhoun, the Texan Rangers, to the people of Texas, dated Eagle Pass, Oct. 4, giving among other things, an account of a battle fought by his command on that day with a force of 1,000 Indians, at Indian Springs, Texas.

The battle, it appears, lasted about three hours, when the enemy retreated to San Fernando, about twelve miles distant. For of Capt. Calhoun's command were killed, and four wounded—one man, and one woman.

Capt. Calhoun (as we gather from his address) was appointed commander of an expedition to destroy the encampment of the Lipan Indians, and was sent to San Fernando, Texas, with a force of 1,000 men.

On the 24th Capt. Calhoun joined on the 20th the two companies of volunteers who were sent to the people of Texas, dated Eagle Pass, Oct. 4, giving among other things, an account of a battle fought by his command on that day with a force of 1,000 Indians, at Indian Springs, Texas.

SPECIAL NOTICES.

DR. BLACKWELL'S SARAPARILLA AND VERSICOLA.

This Company has decided all of its services being used to the vast number of afflicted throughout the southeastern country. It has won its way steadily and surely into public favor, wireless advertising long lists of worthless certificates, and if the afflicted will consult their health and happiness they will give it a trial, for Sarafola, Versicola, and Versicola are the best medicines, and fair to Dr. H. VAUGHN, Druggist, No. 42 Third street, Louisville, Ky., and by Druggists generally.

It can be sent to any person in the country \$1.00 per bottle, or six bottles for \$6. **2424**

What is the Use.

Of any one paying a high price for an article when the same thing can be had for a less price, and at the same time as good in every respect, (and better in some), as the high priced "article." Carpenter & Swamy make "Anubrook" for \$2.00 that will compare with the best in the city. For brilliant tone and finish, they are unequalled. Another great item is they are put up with only one glass, so that you have a clear view of the object. And, if you wish to double the price, you can do so. The double glass is of itself, adds no beauty to the picture—makes it worse. The less liable to damage, and is only a feeble break work for a weak enemy.

CARPENTER & SWAMY, Daguerreotypes, 51 Main street, Third and Fourth.

Mr. FORDSON—A man called upon you on Monday evening last, and told you that I had purchased several pairs of Spectacles at different stores, but had never obtained any that did not cause great pain and fatigue to the eyes, but am happy to state that the pair I purchased of you will be beyond expectations, a day and candle light have been had, and my sight is now clear, and I have used them, I can now do my work and read small print without them. Wishing you every success your enterprise deserves, remain, yours truly,

LOUISVILLE, Ky., Feb. 24, 1864.

Mr. G. SOLOMONS—Dear Sir: Having satisfactorily tried a pair of Spectacles purchased of you, and finding them far superior to any I have ever used, in that respect, but had never obtained any that did not cause great pain and fatigue to the eyes, but am happy to state that the pair I purchased of you will be beyond expectations, a day and candle light have been had, and my sight is now clear, and I have used them, I can now do my work and read small print without them. Wishing you every success your enterprise deserves, remain, yours truly,

B. J. EVANS.

On Broadway, Garrison Room.

I have had Mr. SOLOMONS' Eye Glass for a very brief period, with decided advantage, and have no hesitation in stating that a defective vision of long standing has been relieved, and the organs seem to be acquiring vigor and tone. I therefore cheerfully bear testimony to their excellency and accuracy, as also to Mr. SOLOMONS' as a practical Optician, and the wonderful facility with which he adapts his Glasses to the various peculiarities of vision. Yours truly,

B. HILLMAN.

LOUISVILLE, Ky., Feb. 24, 1864.

Mr. G. SOLOMONS—Dear Sir: Having satisfactorily tried a pair of Spectacles purchased of you, and finding them far superior to any I have ever used, in that respect, but had never obtained any that did not cause great pain and fatigue to the eyes, but am happy to state that the pair I purchased of you will be beyond expectations, a day and candle light have been had, and my sight is now clear, and I have used them, I can now do my work and read small print without them. Wishing you every success your enterprise deserves, remain, yours truly,

B. HILLMAN.
